EXECUTIVE SUMMARY

Passionate about Data Analysis, Data Science, and Business Intelligence. Proficient in Python programming for data manipulation and analysis, as well as expertise in data visualization tools such as Tableau, PowerBI, and Looker Studio. Additionally, skilled in using Streamlit for real-time dashboard creation. I am a certified Data Science Associate by BNSP. I enjoy completing tasks, embracing new learning opportunities, and providing effective solutions utilizing my skills and abilities. Known for quickly adapting and thriving in fast-paced environments, ensuring success even under pressure.

WORK EXPERIENCE

PT DIAMOND COLD STORAGE   **Jakarta, Indonesia**
Senior Data Analyst   **May 2024 - Present**
- Created a Stock Coverage Dashboard to monitor inventory sustainability, and managed multiple dashboards including Service Level, Stock Availability, and KPI BPOM, providing key insights for operational decision-making.
- Innovated with UiPath to automate data extraction and scheduling, ensuring timely distribution of stock data to all branches every morning, significantly improving data accessibility and efficiency.
- Led data projects from cleaning and transformation using Excel, SQL, and Python, to visualization with Power BI, delivering actionable insights through effective data storytelling and analytics solutions.

PT QWORDS COMPANY INTERNATIONAL   **Jakarta, Indonesia**
Data Analyst Intern   **May 2024 - Jun 2024**
- Created comprehensive Looker Studio dashboards to visualize five-year VPS installation trends, aiding stakeholders in data-driven decision-making.
- Identified and cleaned relevant datasets, ensuring quality and relevance, and prepared them for analysis using Python.
- Conducted feature engineering and applied statistical methods and machine learning algorithms to extract insights and uncover trends.

STUDIO POONYA   **Jakarta, Indonesia**
Data Analyst   **Feb 2021 - Present**
- Developed and implemented real-time dashboards for the finance and logistics sectors, providing accurate and timely data insights crucial for strategic decision-making processes.
- Researched and implemented comprehensive market research to inform product development strategies, assessing market trends, competitor pricing, and innovative features, ensuring alignment with consumer demands.
- Oversaw SQL-based database transactions, ensuring error detection and producing detailed reports to uphold data accuracy, thereby facilitating informed business decisions.

PT MARGA NUSANTARA JAYA   **Jakarta, Indonesia**
IT Developer   **Aug 2022 - Sep 2023**

- Managed sales and distribution of data products, optimizing efficiency by analyzing sales and demand trends, and ensuring data integrity through the use of SQL queries in Aqua Data Studio.
- Responsible for error checking in the database using SQL queries, as well as compiling and presenting reports on error findings that provide valuable insights for the company in making strategic business decisions.
- Collaborated with relevant departments to design and implement database flows for stock opname projects and successful implementation resulted in a 75% reduction in error rates, leading to a more efficient and accurate process

PT KIMIA FARMA   **Jakarta, Indonesia**
Big Data Analyst Intern   **Jul 2022 - Aug 2022**
- Developed proficiency in big data fundamentals, mastering concepts of data warehouse, data mart, and data lake to establish a strong foundation for effective data analysis.
- Performed SQL queries and created dashboards using Looker Studio, gaining hands-on experience in data manipulation and visualization.
- Launched a project as a Data Analyst Intern, crafting a sales dashboard in Looker Studio accessible to all stakeholders, showcasing skills in data presentation and collaboration.

EDUCATION

DIGITAL SKOLA   **Jakarta, Indonesia**
Data Science Bootcamp   **Nov 2023 - Mar 2024**
