Dear PT Simbadda Group,

I am writing to express my sincere interest in the IT Project Staff position at PT Simbadda Group, I am confident that my skills and experiences align seamlessly with the dynamic requirements of your esteemed organization.

In my previous role at PT Studio Poonya, I spearheaded the development of a React JS website dedicated to streamlining payments at photo booths. Additionally, I implemented an innovative system involving referral codes and vouchers, enhancing user engagement and experience on the Studio Poonya website.

While at PT Marga Nusantara Jaya, I designed and implemented a stock opname application using React Native. This application facilitated real-time data input and significantly improved efficiency, allowing users to promptly address any issues that arose.

As a Fullstack Developer at PT Mattel Indonesia, I contributed to the development of a web-based tracking system for components using CodeIgniter. This project empowered users to monitor components in real-time, directly from the dashboard, providing invaluable insights into ongoing processes.

Beyond my expertise in mobile and web development, I possess skills in UI/UX design, data analysis, database administration, and quality assurance. My holistic approach to projects ensures a comprehensive understanding of the entire development lifecycle, resulting in robust and user-friendly solutions.

Enclosed with this letter, you will find my resume detailing my professional journey and a portfolio showcasing some of my notable projects. I am eager to bring my passion for creating intuitive and efficient user interfaces to PT Simbadda Group.

I would be honored to discuss in further detail how my skills and experiences can contribute to the continued success of PT Simbadda Group. Thank you for considering my application. I look forward to the opportunity to contribute to your dynamic team.

Sincerely,

Yodi Fakhri Muhammad
